MEMORANDUM FOR: [REDACTED]

SUBJECT: [REDACTED]

Maps and Publications *me*

REFERENCE:

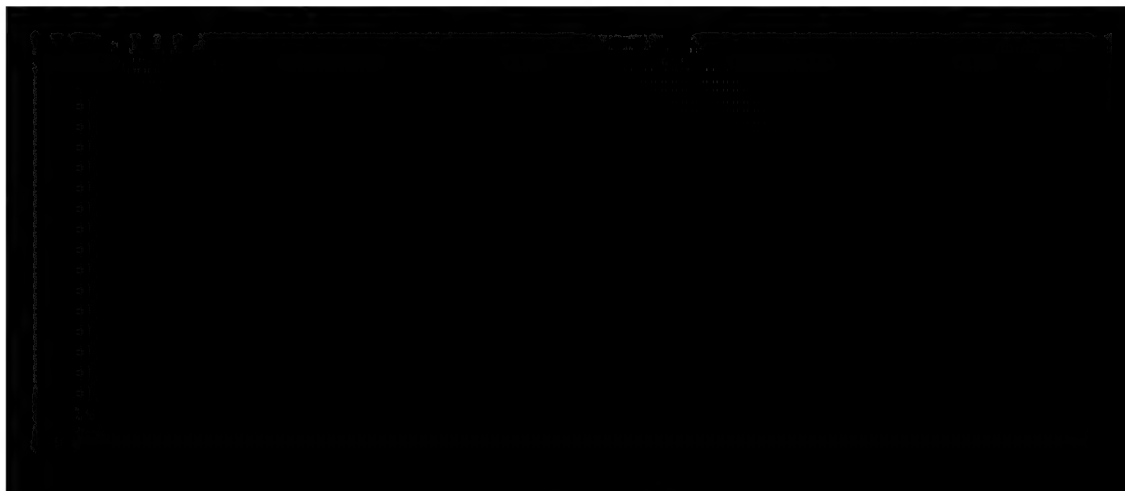

Memo 3785 dated 14 November 1961

1. Maps and Publications: The Director's Office has told me that there is no list available for ascertaining whether you have or have not received all of [REDACTED] published materials. Also a particular number sequence may have no relationship to subject, hence gaps in numbers. From numerous queries here it seems on the whole that you are receiving most of the publications and maps produced here. As you know, a lot depends on the ORR Reading Panel. Some [REDACTED] publications contain both [REDACTED] topics but it seems that sufficient copies of the significant items reach CIA that this should be no problem.

It is possible to keep a check on the pulse and publications of [REDACTED] through (1) the [REDACTED] reports (a sort of status report) (2) the statement of "Reports completed during the month of.... and work in preparation" in [REDACTED] and (3) the list of SECRET and list of TOP SECRET items raised in [REDACTED] Current Intelligence Meetings.

The following summary of [REDACTED] Publications and channels may be useful:

[REDACTED] produces the well-known Airfield Handbooks on Airfields of the World and issues supplements and revisions from time to time. This publication reaches CIA via AFCIN-3.

[REDACTED] on a recent visit to Cyprus informed me that [REDACTED] (Mid East) prepared a series of reports entitled "M/T Routes" on several countries. [REDACTED] was shown a study on Libya and he believes that a report on Egypt has been completed. These reports prepared for the Mid East Command are primarily main transportation routes or "going" studies. According to [REDACTED] in the Director's Office these studies are used as supplementary information for preparation of detailed studies on the same subject appearing in [REDACTED] studies. 25X1C

I have requested one copy of each study and future studies for D/GG. Release of these studies of course depends on [REDACTED] approval. The Director's Office has given tentative OK.

3. Railways - USSR - [REDACTED] has given me seven copies of the map entitled, "USSR: Railways, Ports and Coasts" to forward to [REDACTED] will also receive additional copies. Please note that an error in drafting occurred on the line between Komsomol'sk and Nikolayevsk. This line should be grey.
